

# BioCamp 2020

May 24–26, 2020, Ljubljana, Slovenia

*42 selected students will in May 2020 meet in Ljubljana with leading experts and top managers and gain an insight into the world of research and international business environment within the pharmaceutical industry. Would you like to be one of them?*

The BioCamp is a three-day forum that brings together selected top students with distinguished experts and top managers. It is a great opportunity to gain direct insight into the world of research and international business environment within the pharmaceutical industry.

BioCamp develops participants into young professional and the leader of the future:

- Gain insight into the professional and business environment of the global pharmaceutical industry
- Connect science, business and technology for the benefit of the patient
- Interact with key experts and leading managers from Lek, Sandoz and Novartis
- Discover and design innovative business solutions for actual challenges in pharmaceutical industry
- Explore career opportunities
- Network with talented students from other countries

## From the program of BioCamp 2020

Key-note lectures, panel discussion and workshops by leading scientists from academia, Lek, Sandoz and Novartis:

- New business models in pharma industry
- Patient view on treatment opportunities
- Professional development of students
- Discover and design innovative business solutions for actual challenges in pharmaceutical industry
- Career opportunities in the pharmaceutical industry
- Site visits
