

Dear colleagues,

Greetings from Aachen! We extended the application deadline until July 15. Could you forward the email below as a reminder to your undergraduate students (health)? We attached the brochure of the program. I appreciate any help you can provide.

## SEMERA 2024

Dear students,

Applications are now open for [SEMERA 2024!](#)

„Semester for Medical Research Aachen”, in short SEMERA, is a 12-week-long, English-taught virtual research program from the Faculty of Medicine, RWTH Aachen University. SEMERA 2024 takes place from **September 23rd until December 13th**. The program is for students from all health degree programs worldwide, with a strong research interest. You will learn the necessary research skills for your future research projects, and apply that knowledge during the program. SEMERA was designed to be completed parallel to your studies, at your own pace.

The last 3 days of the program will be hybrid: both virtual and in Aachen. During these farewell days, you will get to present your poster in the SEMERA poster walk, which will take place on the last day in a hybrid format. You will get **5 ECTS** for successfully completing SEMERA.

You will find more information and statements of previous SEMERA participants [on our website](#), or you can gladly look into our attached brochure. [Join us on Instagram](#) for a glimpse into past years' experiences.

[Apply now](#) until the **15<sup>th</sup> of July**, there are limited spots!
